centru ar tiesībām piešķirt finanšu
vadītāja kvalifikāciju.*

BANKU AUGSTSKOLA

SQA customized award

- SQA's Customised Award means that we are allowed to develop qualifications that are tailored to our needs.
- This is ideal way to offer candidates the opportunity to get specialized qualifications in specialised business.
- It also allows if you candidates to get qualifications with added value, e.g. If you are operating in a unique market where existing qualifications don't quite meet labour market requirements.

SQA customized award

- Customised Awards help candidates to increase skills levels because they're learning outcome based and demonstrate competences.

Process

In order to have the legal right to offer SQA approved qualification several things had to be done:

- BA School of Business and Finance sought initial approval as an SQA Centre, it involved also a site visit from SQA to us.
- Approval to offer specific qualification
- All process started at the beginning of 2012, at the end of the year there was a site visit, the first group (12 persons) graduated with SQA approved qualification in June of 2014.

Approval of the SBF as SQA Centre

It is a two stage process that confirms the following:

- SBF has appropriate management structure and quality assurance systems to support the delivery, assessment and internal verification of SQA qualifications
- SBF has the staff, reference and learning materials, assessment materials, equipment etc.
- Development and approval of Course description for the qualification “Financial Manager”

Benefits of approval as an SQA Centre

- SBF did the audit of existing documentation system, collected evidence that procedures that SBF have in place fully comply with SQA requirements
- Did a review of existing quality assurance system, clearly identified all the processes
- Academic staff improved the skill of designing a programme, as well as the skill of developing Learning outcome based course for a specific qualification.
- It was the first foreign accreditation by external organization such as SQA
- Approval report was delivered with recommendations for SBF improvement

SQA's quality assurance processes

SBF studied the requirements related to processes and criteria. It included the following:

- A management of an SQA Centre and the criteria for management procedures
- Approval to offer specific qualification, in our case customized award in Financial management
- Internal verification and internal assessment and criteria related to resources
- External verification of internal assessment and criteria related to external processes
- Quality control of external assessment and criteria is that assessment is in line with national standards
- Validation and the criteria that the qualification is fit for purpose

The Quality processes

- Each criteria is described and SBF had to demonstrate with documents and examples how we fulfil each criteria requirement.
- SBF had to develop additional documents that improved our processes.
- For acquiring this qualification a special procedure was developed with clearly identified responsible persons and their tasks.

Improvement and development of documents

SBF improved its existing documents related to appeals procedure, related to equal opportunity rights etc.

On site visit

- After having handed in formal application with all required documents, there was a site visit from SQA to SBF on 17, December 2012
- During the visit of a Quality Enhancement manager SBF acquainted with its process systems and documentation
- During the visit each criteria was analysed and examples of evidence were provided and it demonstrated what impact it might have on the procedure
- After the visit improvements had to be done in terms of some procedures, as well as in terms of setting responsibilities of staff involved

Sertifikāts finanšu vadībā

- 4.kursa studentiem tiek piedāvāta iespēja iegūt starptautiski atzītu Skotijas kvalifikācijas aģentūras (SQA) sertifikātu finanšu vadībā.
- Tas paaugstina darba ņēmēja konkurētspēju darba tirgū, īpaši Eiropā un starptautiskajos uzņēmumos Latvijā.
- Ir papildus apliecinājums darba devējiem par speciālista kompetencēm finanšu vadībā.

Sertifikāts finanšu vadībā

- Visi finanšu vadības kvalifikācijas ieguvēji tiek reģistrēti starptautiskajā SQA datu bāzē.
- Darba devēji izmanto starptautisko SQA datu bāzi, lai atrastu jaunus darbiniekus ar atbilstošu kvalifikāciju.
- Turpmāk, absolventam iegūstot jaunu kvalifikāciju SQA datu bāze tiek papildināta ar jaunu informāciju.

Rezultāti

- 2013./2014. ak. g. **12** studenti ieguva sertifikātu un kvalifikāciju.
- 2014./2015. ak.g. **23** ir pieteikušies sertifikāta iegūšanai.
- Studenti papildus *finansista* kvalifikācijai iegūst *finanšu vadītāja kvalifikāciju*.
- Maksa **115 EUR**

PALDIES!
